Strategy for Results Utilization

• To achieve PEPFAR’s Roadmap goals it is key to promote data utilization.
  – One key strategy to get data utilized is to maintain continual feedback with stakeholders on program data, including assessments/situation analyses

• The Task Order in Uganda consisted of evaluating and assessing key programs to extract lessons learned, best practices, and remaining challenges
  – 6 Project SEARCH evaluations in Uganda
  – Highlighted example: OVC Situation Analysis
Results Utilization via Continual Feedback with Key Stakeholders

Results Utilization

- Definition of OVC changed to define levels of vulnerability
- Programmatic priorities shifted

Continual Feedback

- Inception Meeting—agreed on OVC definition
- Data Interpretation Meeting—agreed on cut-off
Examples of Dissemination Channels
